place. By taking two games from the Athletics yesterday, and with the assistnce of the Lancasterians, who adminvacated fourth place and ensconced themselves in the much coveted three hole.

This was expected of them, and now all that the cranks desire is for them to stay where they have gotten. It is a great victory for Richmond, a new comer in the Atlantic League, to be able to claim third place in the race, and it will be a still greater thing if she can continue there to the close of the season. The Giants are amply strong to hold their position, if fair play is accorded them, but they go away after to-day's game to close the season up North, and it is a question whether they will not be defrauded of their own. But one more week will intervene, however, before the end comes, and there is a chance for second place being secured by this city's representatives. Here's success to the

effort. YESTERDAY'S CONTESTS.

The Richmond lads had on their playing clothes yesterday, and though the Athletics put up good, strong games, the in the first contest it took some good, hard playing to win, for the Philadelphia lads did not feel disposed to yield a point until forced to do so, and they really seemed to be bent upon climbing the pennant ladder at Richmond's ex-

the very first timing they got on to Chesbro's delivery, and before any of the locals realized it fully they had scored four runs and taken the lead. The Johnhies couldn't stand any such treatment as this, however, and they soon got to-gether and pounded Cain vigorously, as a result of which they forged rapidly to the front, and walked off the diamond tasy victors, as is shown by the following official score:

The Black Bass.

(Chicago Record.)
The black bass shot from his rocky nook In the beech-tree's sombre shade,
And he struck at the gayly-spangled hook,
And the bamboo bent and swayed;

And the throb of the spirit high,
And the whirling line and the pole's

And the lusty fight ere the prize is mine. Who is there can picture a part of it When the black bass takes the fly?

CAPTAIN TAYLOR'S ACCEPTANCE. When Captain Sydnor descended from the platform, Captain Charles A. Taylor, one of the most eloquent of the camp's speakers, ascended to it, and in a most interesting address, accepted the por-trait, Captain Taylor, like Captain Sydaor, served in the old Fourth Virginia Cavalry (Wickham's Brigade), and he paid the highest tribute to his late commander. Captain Taylor spoke of the portraits that had been acquired by the camp, gave a sketch of General Wickham's career, and in conclusion

WAS A HAPPY CONCEPTION.

Lee Camp accepts his picture with sincere thanks to its donors, and will give it a place in its gallery of heroes of the Lost Cause. It was a beautiful conception, comrades—that of preserving upon canvas the features of those whose deeds have endeared them to their countrymen. The ranks of the old Confederate army are melting day by day. The thin line of gray that withstood the mighty onset of Grant's legions, hurling back their masses in defeat again and again, is now but a handful of old men and a memory. Before these men pass away, before this memory vanish, it is our duty to show the respect in which we held our cause and its champions. We must repudiate with indignation and abhorrence the dishonoring terms of treason and rebellion as applied to our struggle for commutional liberty.

The course for which we fought was the

The cause for which we fought was the The cause for which we fought was the patriot's cause, and, thank God, patriotism is too pure, too holy, too divine a flame to be extinguished in the noisome mists of treason and rebellion. It bursts through them like the noonday sun, scattering their foul vapors, and sheds resplendent lustre on mankind.

Then let us invoke the writer's pen, the sculptor's chisel, and the painter's brush to tell our story to succeeding genera-

And when our children gaze upon these pictured canvases may the contemplation inspire their hearts and nerve their arms to like heroic acts. God grant that their performance may be in the defence of our whole country—the country of our fathers, endeared and enabled by deeds of patriot heroes from George Washington to Robert Lee.

PICTURE OF DRUMMER MORRIS. The picture of Mr. Morris was pre-sented by Mr. Matthew F. Maury, who, in the outset complimented the camp on the happy inspiration which caused them to begin the collection of what bids fair to become such a valuable col-lection of portraits. THE NEGRO STOLE HER PURSE.

the Second Police Station, left yesterday

afternoon for her destination. afternoon for her destination.

Mrs. Justis left Petersburg Thursday evening to go to a point about twelve miles from Baltimore, where she had engaged herself to teach during the coming session. It was after nightfall when she reached this city, but as there was about ten minutes between her trains, she went to a fruit stand at Cary and Eighth streets to get some fruit. She paid for the purchase, but retained the purse in her hand. In returning to the station she passed a dark alley, when a negro leaped upon her. She divined his intent of robbery and fought him with all her strength. He grappied her and they fell to the ground. The negro then secured the purse and fled. The lady's screams for help brought a gentleman to the scene, and he followed the man until he was lost in a dark alley.

The situation in which the lady was then placed was most embarrassing. She was in this city alone, and the stolen purse contained all the money she had, 34.32, and her ticket to Baltimore. She told her troubles to a policeman, but the best he could offer was the hospitality of the station-house. He did this as kindly as he could, and she accepted it. She told Sergeant Allen, at the Second Station, that she was a widow, who made her livelihood by teaching, and also the facts about herself which have been related above.

She was enabled to procure another Mrs. Justis left Petersburg Thursday

She was enabled to procure another ticket yesterday, and in the afternoon left for the Monumental City by the York-River route.

"Sowing the Wind."

Those who went to the Academy last night were well repaid in seeing a spiendid performance of Sydney Grundy's most pronounced success, "Sowing the Wind." The company were competent in every particular, and fully met the requirements of the play. The Rosamond of Miss Holloway was an artistic portrayal, as was also the Brabazon of Mr. Herbert Sears, and in the "Sex Against Sex" scenes their work received great applause, which was well merited. Mr. Turner, as the meddle-some old bachelor, Bob Watkin, was highly amusing; and, in fact, all the characters were well played. The costumes, of the period of 1830, were rich, and added much to the charm and success of the performance. A matinee will be given this afternoon, and the engagement will terminate this evening. "Sowing the Wind."

The Republicans here seem to be very much dejected and discouraged on count of their party troubles in State, and are manifesting little tivity. So far only one candidate the House nomination has announced himself, and he came out before the deposition of Chairman Lamb. A mapority of the Republicans of this county favor holding a State convention and putting a ticket in the field, but they have little to say as to the propriety of retaining Colonel Lamb in the leader-

Republicana, However, May Meet
Again in a Few Days,
The conference between the Republican
leaders at Murphy's Hotel on Thursday
night was not continued resterday, as

was expected would be the case, owing to the absence from the city of Judge Edmund Waddill, Jr. Judge Waddill is expected to return to the city to-day, and another meeting will probably be held is a few days, at which the matter of making nominations will be considered.

Colonel S. Brown Allen, of Staunton, and Mr. Morgan Treat, of West Point, returned to their homes yesterday afternoon, and Mr. Park Agnew, the new State Republican chairman, could not be found in town.

Two fights which are attracting considerable interest among Republican circles here are those between Colonel S. Brown Allen and ex-Congressman Bowen, of Tazewell county, for the marshalship of the Western District, and Mr. Morgan Treat and Captain Asa Rogers for the same position in the Eastern District.

Colonel James D. Brady, the new Collector of Internal Revenue for the Eastern District of Virginta, was at his office yesterday, but no changes were mads in his force.

Hon. John F. Ryan, Speaker of the House of Delegates, who is a candidate for re-election, is still in the city, stopping at Murphy's. Notwithstanding that he is being opposed for this position by Hon. E. W. Saunders, of Franklin, and Addison Maupin, of Henrico, Mr. Ryan is quite confident that he will be victorious.

for the foreign debt of \$25,000,000, owed in England, and will compromise or settle with the foreign creditors.

The expenses of the Honduras Government are about \$1,000,000 a year, and being relieved of the expense of handling the revenues, there will be more money for other things. When once the syndicate gets control of the custom-houses, a stop will at once be put to smuggling, which is at present very prevalent along the coast, and it will also absolutely prevent any future revolutions. This will do away with the need of armies and seduce the expenses. The syndicate has also large land and mining grants, and as soon as it gets through with the difficulties of the railroad, will colonize and settle up the land and build up the country.

The arrangements seem to satisfy the Honduras officials, who will have a fixed income, and will be relieved of all the trouble of collecting the revenues and all bother over the public debt, and all danger of revolution.

August 21st.)

The Greeks, whose chief national characteristic is vanity, are now almost at their wits' ends, and it is to be feared that if they are driven into a corner, they might be tempted to take counsel of their desperation. Even the recent rumors as to a movement at Athens in favor of the renewal of the war should not be pooh-poohed as the mere vaporing of a few irresponsible hot-heads. However foolish such a course might be, it would be unwise, having regard to the national character and the present desperate situation of Greece, to consider it as quite out of the question. The Greek Government has been advised by a capable foreign strategist, including a well-known American general, that the Pass of Thermopylae, the gate of Southern Greece, is impregnable, and that, even with their reduced and disorganized army, they could hold it with absolute certainty against all comers. If the conditions of peace are made so onerous as to render it impossible for the Athens Cabinet to accept them, this eventuality, however remote it may appear, thust also be reckoned with. The Greeks consider, and in this they are supported to some extent by the opinion of foreign experts, that in such circumstances a continuation of the war would offer them certain advantages. As to their immediate resources, however, it is known in military circles that they do not now possess more than 30,000 real soldiers, the remainder of their troops being merely raw material. A further disadvantage is that they have practically no generalmon native strategist at all equal to the situation. It must not be forgotten, however, that their unpreparedness did not prevent them from going to war.

Whether in public office or in private life, his great influence was always exerted for the best interests of his people and State, and time after time has he stood between them and danger, as time, and immovable as Jackson's Brigade upon the field of Manassas.

In Monroe Park there stands a bronze monument erected to his memory, bearing the inscription; "Solder, Statesman, Patriot, Friend." And he was all these. There were greater generals than Wickham, but none braver or more faithful. There have been greater statesmen, but none purer or more honest, As a patriot, none purer or more honest, As a patriot, none purer or more honest, as a patriot.
